April 3, 2014

To Whom it May Concern,

It is my pleasure to write this letter of recommendation for Amy Hissom-Daugherty. I have had the pleasure over the last several months to work with Amy on the Men of Faith, "Men's Rally in the Valley" website.

As the press secretary for the group I became aware of our outdated website and realizing the potential that it had for our group to move forward with the massive workload we have taken on through our "Men's Rally in the Valley" event.

I solicited Amy's services as a web designer and found that her knowledge, background, and professionalism was exactly what we needed to create the website that would move our organization forward. What I found was that Amy has the leadership skills needed to work with different personalities within our organization. Her understanding of our volunteers led to an awesome teaming up of the men in our organization and Amy's talents.

Amy provided us with a working model which we were able to expand upon and on March 2, 2014 we took the website live and have been completely satisfied and pleased with the responses that we received about the work that she had done and continues to do. The product proved to be a collaborative effort that gives evidence of Amy's ability to collaborate and be a "team player."

In working with Amy on this project I have found her to be a very imaginative, intelligent, and motivated individual. I look forward to long continuing business relationship, as we continue to develop and maintain our product through the collaborative efforts of Amy and our force of volunteer men.

Sincerely,

A handwritten signature in black ink that reads "Robert F. Weber". The signature is written in a cursive, flowing style.

Robert F. Weber  
Press Secretary
