To whom it may concern:

It is with great pleasure that I write this letter of recommendation for Amy Hissom.

Our web site was so outdated and plain that I was uncomfortable informing new customers and new employees of our web site. Then I heard about Amy Hissom and I contacted her.

I have been working with Amy for the past several weeks and I am here to let you know that Amy is top notch. She's is dedicated, very easy to work with, a very talented web site designer, she pays attention to all details, Amy is well organized and Amy has a fantastic, friendly personality.

Amy is number one and will be an asset to any company.

Sincerely,

Brian Perry
