Graduate Committee:

It is a pleasure to write a letter of recommendation for Amy Hissom. I have worked with Amy for the past year. In my position as Superintendent of Schools, I have the responsibility to recommend competent individuals for employment in the district. Western Beaver County School District, through the strategic planning process, determined an improved district website was necessary. The district employed Amy as a contracted service to create the website.

During my initial meeting with Amy, it was evident that she had the knowledge, background, and professionalism to create the website. Amy and I decided to conduct several meetings with key stakeholders to develop a needs assessment for the new website. Amy then created a template to use as the initial building block for the website. The product proved to be a collaborative effort that gives evidence of Amy's ability to collaborate and be a "team player."

I find Amy to be a very imaginative, intelligent, and motivated individual. Amy will be very successful as a graduate student.

If I can be of any assistance, please do not hesitate to contact me at (724) 643-9310.

Sincerely,
